

Replacement of T9 Pump

The previous pump **(TL-B11-220012)** used in the T9 from Insatech has been discontinued. Going forward a new pump **(TL-B10-A12-0905-W-07150)** is replacing it.

New Pump	Old Pump
	
(TL-B10-A12-0905-W-07150)	(TL-B11-220012)

Included in the kit:

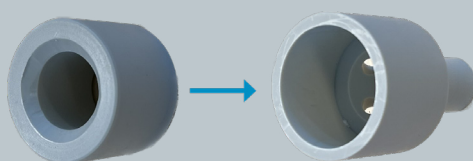

Part no.: 10581-3516-T9-Kit

1× Pump – Replacement pump with increased temperature resistance.

Part no.: TL-B10-A12-0905-W-07150.

1× Custom adapter – To handle the smaller inlet tube on the new pump an adapter has to be placed in the original pump fixture as seen below.

Part no.: 10372-3503-P2074, Length: 25 mm, Diameter: 33.2 mm, Hole diameter: 18 mm.

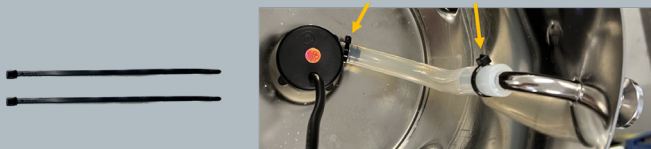

1× Silicone hose – The outlet tube of the new pump is located further away.

Part no.: 228-1524, Length: 220 mm, Diameter: 16 mm, Hole diameter: 10 mm.

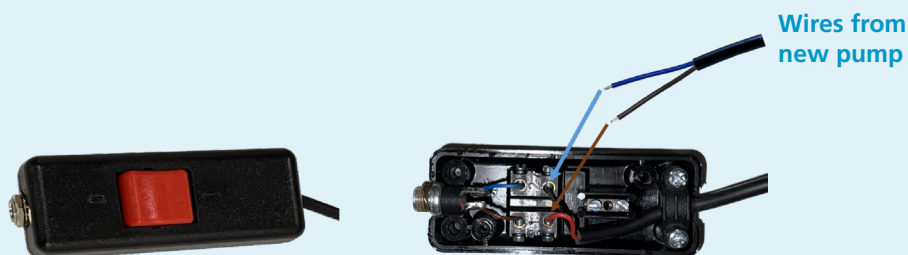

2× strips – To clamp both ends of the silicone hose.

Product: UB150B-B

The on/off switch can be reused by removing the wires from the old pump and connecting the wires from the new pump. For safety reasons please disconnect the power supply.
